

# Brain Tumor Support Groups

For Patients, Families & Caregivers

**Because the last thing one should feel during the cancer journey is alone.**

The Brain Tumor Support Group will consist of two different types of meetings:

- On **even** numbered months, patients, adult family members and caregivers will break into separate groups following introductions.

- On **odd** numbered months, a guest speaker will present a topic of interest, followed by group discussion.

Both meetings are supervised by a nurse or social worker experienced with brain tumors.

Please join us.
