

Head & Neck Oncology Support Group

Join Us for Our Meetings!

The Head and Neck Oncology Support Group allows for interaction with other head and neck cancer patients; their families, caregivers and friends; and University of Michigan staff members. A variety of speakers present information related to the treatment and care of head and neck cancer. Presentations are followed by a Q&A session with the speaker and meeting participants. This is an open session, and walk-in attendance is welcome.

2nd Tuesday of every month

2-3:30 p.m.

Walter Work Conference Room

Adult Otolaryngology Clinic

Taubman Center
